- (8) **USB** - USB port
- (9) **Display Screen**
- (10) **◀.MODE.▶** - Previous, Skip backward, Switching Mode, Menu, Next, Skip Forward
- (11) **MIC** - Microphone

## Getting Started

### Step 1: Set up the software:

1: If your computer is running **Windows 98**, you should download the **Windows 98** driver from the software CD included with your MP3 Player. To do this insert the CD in your CD-ROM drive and follow the steps below:

Double-click on the **"My Computer"** icon, then double click on **"Set-Up"** to install the software and follow the installation instructions.

After you finish the installation, you can find this file in your **"Program files"** in your **"C"** drive.

If your computer is running **Windows ME/2000/XP or Vista** your MP3 player will be "seen" by the computer upon plugging the unit into the computer via the USB cable connector. No extra set up steps are necessary.

### Step 2: Transferring Music and Content

Once your MP3 player is seen by the computer you may now begin to transfer music files onto the device.

1: How to copy Music files from your PC to MP3 Player directly:

Select the music file by clicking on the file, - Choose **"Copy"** – then go to the MP3 player Icon and choose **"Paste"**, it is that simple. Repeat this procedure to add the music files you want to listen to.

2: If you want to transfer music or individual songs from a CD, please use the **Windows Media Player** software which may be on your computer to convert the CD file to MP3 music files. For the detailed software which may be on your computer to convert the file to MP3 music files. For the detailed instructions of this procedure please check your **Windows Media Player** software guide for reference

3: For those people who may have some music files that are not in .mp3 format, all is not lost. In fact, anything that you can play on your computer can be easily recorded as an MP3 with the free program, Audacity. Just go to: <http://audacity.sourceforge.net/> And as you know, MP3s can be played on anything. **Please note that this is a 3rd party software and any support for it would be done by contacting Audacity.**

### Step 3: Disconnect your player

When you have finished transferring files, disconnect your MP3 player.

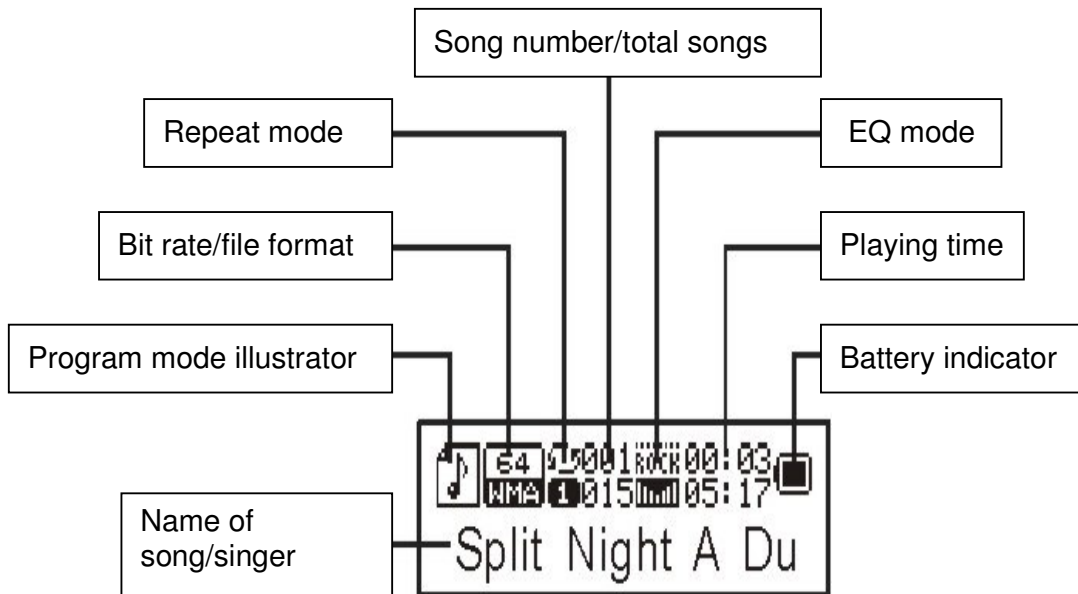

Be careful not to disconnect your player while files are still being downloaded, otherwise you may lose or damage the content being transferred.

### Step 4: Playing Media Files, listening to Music

You are now ready to play media files on your player.

- Insert the earbuds into the earphone jack output.
- Firmly press the **"Play"** button to turn the unit on, choose the **"MSC" (music)** mode, then lightly depress the **"MODE"** button to view the audio files, press **"Play"** to activate the play mode.
- Press **"VOL+"** or **"VOL-"** when in play mode to adjust the volume.
- Enjoy your MP3 Player!

## Understanding the Display Screen

## Understanding the Function Modes

### **Music Mode**

Insert earbuds into the earphone jack.

Firmly press **"Play"** button to turn on the unit, choose **"MSC"** (Music) then lightly depress **"MODE"** button to view the audio modes, press **"Play"** to activate play mode.

Press **"VOL+"** or **"VOL-"** when in play mode to adjust the volume.

### **Equalizer Modes**

You may adjust the tone quality of the music you are listening to by adjusting the equalizer modes to suit the music you have selected.

When playing music, lightly depress the **"MODE"** button to view the sub-menu.

Press the **"Fast forward"** button to activate the **"Equalizer"** menu.

Slightly depress **"MODE"** button to view the **" Equalizer "** option setting.

Menu of EQ Modes.

<b>Natural</b>
<b>Rock</b>
<b>Pop</b>
<b>Classic</b>
<b>Soft</b>
<b>Jazz</b>
<b>DBB</b>

Press "fast forward" button to select the mode, then lightly depress the **"MODE"** button to confirm selection.

## Synchronized Lyric Display

This player supports **\*.LRC** lyric files, so as to achieve the synchronized playing of lyrics and songs which will allow the match up of lyric files that are matching to those of the songs. For example :

Name of song: Du-Split of Night.mp3

Name of lyric file: Du-Split of Night.lrc

If there is lyric available for the current song, then the icon "🎵" will change to "🎵" in the audio mode.

Songs Lyric found:

Firmly press the **"MODE"** button to interface with lyrics.

Lyrics are displayed.

Lightly depress **"MODE"** to return to song mode.

Manual lyric check: slightly depress **"VOL+"** or **"VOL-"** button to read the lyrics.

## Recording Mode

Note: \*insure that battery supply is sufficient when recording.

Enter the main menu.

Press the **"Fast forward"** button to choose "🎵" **–REC** (recording) mode.

Lightly depress the **"MODE"** button to confirm entry into the recording mode, the display will appear as:

Lightly depress the **"Play"** button to begin recording notes:

- If the display shows **"room crammed"**, it means there is no room for new recorded files, please delete other files to create more room.
- If the display shows **"directory crammed"**, it means there are already 99 recorded files in this directory, please change to another directory.
- Firmly press the **"Play"** button to stop recording.
- Firmly press **"Play"** button again for saving

Choose the recording type; the record mode display will look like this:

Lightly depress the "**MODE**" button to see the sub-menu of recording modes, press the "**Fast forward**" button and choose the "**Recording type**" sub-menu, then Lightly depress the "**MODE**" button to enter this item,

Here is the recording type selection interface:

Lightly depress the "**Fast forward**" button to choose the desirable recording type, and then Lightly press "**MODE**" button to confirm your choice.

### Recording type:

**Fine REC** : High-quality recording, **WAV** format, good sound quality.

**Long REC** : Long-playing recording, **ACT** format, ordinary sound quality.

**Fine VOR** : High-quality sound control, **WAV** format (sound-control recording, automatic pause of recording in the absence of sound).

**Long VOR** : Long-playing sound control, **ACT** format-

Press "**MODE**" button to confirm then press "**PLAY**" to begin recording.

### Voice Mode

Playing recorded files;

Enter the main menu.

Press the "**Fast forward**" button to choose "**RPL**"(Voice Mode).

Lightly depress the "**MODE**" button to choose the "**Voice Mode**" interface.

Press "**Play**" button to begin. When the unit is not playing, press "**Fast Backward**" or "**Fast forward**" to select the files in the "**Voice Mode**".

### Volume control

**VOL+**: Increase the volume.

**VOL-**: Decrease the volume.

## Converting ACT files to those of WAV format.

Files of **ACT** format recorded by this player can be converted to those of **WAV** format through the tool program attached in the driver CD.

Run the "**Sound Converter**" program, click the "**open**" button.

Choose the **ACT** files.

Click the "**converter**" button and begin the conversion.

In addition to the conversion, this program is also able to run **WAV** and **MP3** files.

## Warranty

### **90 Days Limited Warranty**

This product is warranted to be free from defects in material and workmanship for a period of 90 days. Warranty obligations are limited to replacement or repair of defective parts and components, at the option of the manufacturer. If the original model is no longer available, we will substitute with a model of equal or better value than the original item. The warranty of this product is null and void if the product is subjected to negligence, abuse, modification, misuse, accident or if the customer uses the product for a function it was not intended for. This warranty is only valid for the original purchaser of this product and will not be honored if the product is resold. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

The manufacturer will not be liable for incidental or consequential damages caused by the use of this product. The manufacturer will not be liable for any costs such as lost profits or revenues, cost of temporary replacements, loss of data, loss of equipment or use of equipment or any claims by third parties.

After 14 days from the purchase date of this product, please call the phone number listed below to obtain service. A customer service representative will give you a return authorization (RA number) allowing you to ship the product to the service center. The purchaser must have a copy of the original receipt for proof of purchase within 90 days. The purchaser of this product is responsible for any shipping charges to the repair facility. The manufacturer service center will repair or replace the unit in question and send it back to the purchaser.

In order to contact the service facility, please call **508-435-4830** or 800-639-3803.
