USER'S GUIDE

Color Changing

LED Bulb

Welcome to your new color-changing LED light bulb!

QUICK GUIDE:

This color-changing LED light bulb features 16 color options and a color-changing mode. Each color can be cycled through by turning the light bulb off and back on again.

16 Colors: Red / Pink / Magenta / Light Magenta / Orange / Light Orange / Green / Light Green / Yellow / Light Yellow / Light Blue / Violet / Light Purple / Blue / Aqua / Bright White. The 17th color mode will cycle through each color automatically with 2 second intervals between colors.

Built-In Memory: When turned off for more than 5 seconds, the same color light option will illuminate the next time that the light bulb is turned back on.
